

SPC/Rigid Vinyl Click Floor (Valinge locking system)

- Valinge locking system (2G/5G-i)
- Glue less easy installation to save time and installation cost.
- Available for DIY.
- Residential and Commercial applicable.

Optional with stone plastic composite that features:

1. Stronger flexural strength. The clicker will not be broken by improper installation and during the life time.
2. 100% water proofing. Much lower water absorptive than normal vinyl planks and click planks with WPC core
3. Perfectly dimensional stability. Dimension changes less than 0.06% after exposure to heat testing, which enables it suitable for different kinds of climates. (The value of normal vinyl planks is 0.15%)
4. Recyclable and eco-friendly. The material could be 100% recyclable together, while click planks with WPC core cannot be recycled.
5. Super rigid core makes the whole product feels like to real wood planks.
